Data Analytics

Today's agenda Project recap Problem The Analytics team Process Insights Summary

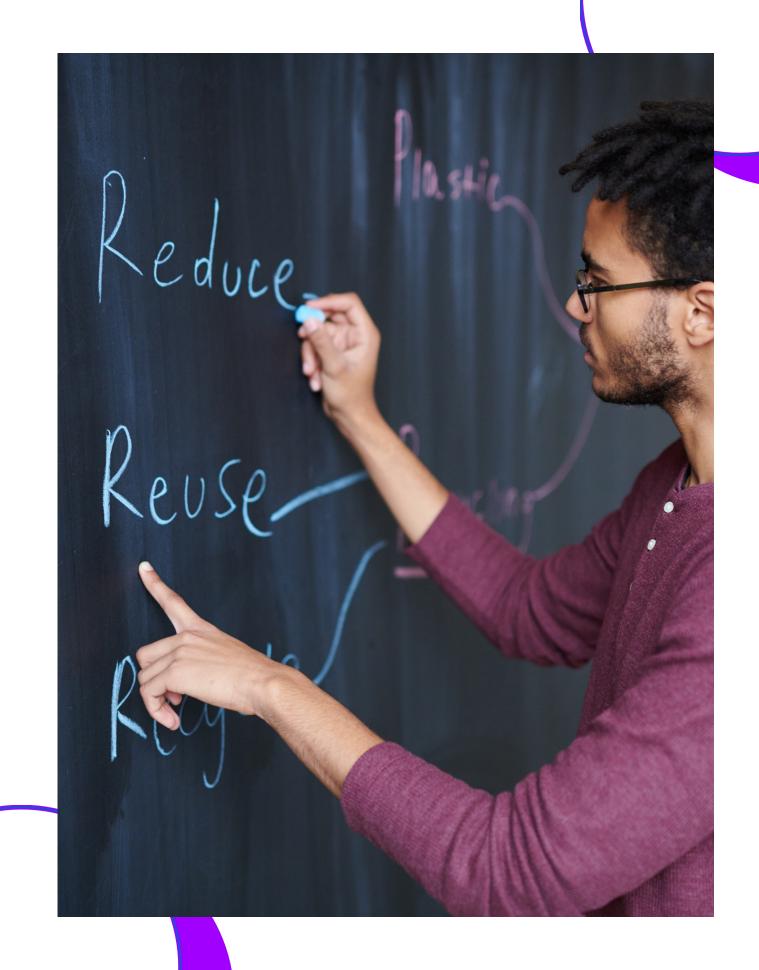

Social Buzz is a fast growing technology unicorn that need to adapt quickly to it's global scale. Accenture has begun a 3 month POC focusing on these tasks:

- An audit of Social Buzz's big data practice
- Recommendations for a successful IPO
- Analysis to find Social Buzz's top 5 most popular categories of content

Problem

- The client has reached a massive scale within recent years and does not have the resources internally to handle it.
- Social Buzz receives over 100000 posts per day which amounts 36,500,000 posts every year, of which this all unstructured data making it very hard to make a sense.
- Identify the requirements that need to be delivered for this project.
- Merging of sample data set tables
- An analysis of their content categories that highlights the top 5 categories with the largest aggregate popularity

Summary

ANALYSIS

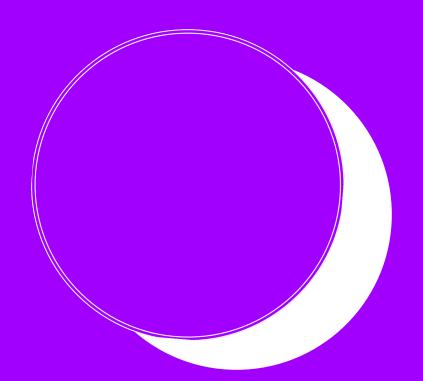

Animals and science are the two most popular categories of content, showing that people enjoy "real-life" and "factual" content the most.

INSIGHT

Food is a common theme with the top 5 categories with "Healthy Eating" ranking the highest. This may give an indication to the audience within your user base. You could use this insight to create a campaign and work with healthy eating brands to boost user engagement.

NEXT STEPS

This ad-hoc analysis is insightful, but it's time to take this analysis into large scale production for real-time understanding of your business. We can show you how to do this.

Thank you!
